

# Network System Administrator

## Program Objective

To provide the necessary theory, knowledge, attitude, and skills to enable a graduate to obtain A+, MCSA, Network+ or Server+, and Security+ certifications and obtain an entry-level position administering a variety of networks and providing end-user software support.

## Program Information

**Start Date:** Weekly

**Length:** 52 Weeks

**Class Times:** Flexible Hours - mornings, afternoons, evenings and Saturdays

*\*Online studies also available*

## Admission Prerequisites

- Grade 12 or equivalent
- Successful completion (at least 75%) of an entry test to determine general readiness for learning
- An interview with an admissions officer to determine the apparent appropriateness of training related to the potential student's needs and aptitudes

## Financial Assistance

Students registered in the full-time and part-time programs may apply for financial assistance under the Canada Student Loan Act. In addition, students may be eligible for Service Canada Sponsorship.

## Credit for Previous Training

Credit for previous training and education may be awarded to students who are able to successfully complete examinations which demonstrate proficiency in specific skill areas.

## Job Placement-OJT

All students registered in full-time programs will be provided with a job placement to use their skills in a practical work setting and gain further knowledge as it relates to the real world of work.

## Graduate Opportunities

Network Administrator  
End User Support  
Network Analyst  
Self-Employment  
Service Industries  
Private Sector  
Government

## Certifications

Industry and vendor certifications have become a benchmark used by employers when hiring new employees. The Network System Administrator program helps students prepare for certification exams in these areas:

- A+ Certification
- Microsoft Certified Professional (MCP)
- Microsoft Certified Systems Administrator (MCSA)
- Security+ Certification
- Network+ or Server+ Certification

## Student Comments

*"Academy of Learning's flexible scheduling enables me to get the education I need to find a rewarding career in the Information Technology field."*

*Todd Bambrick*
